

The cover features a vibrant background with a large sun in the upper right corner, depicted with concentric yellow and orange circles. The rest of the background is filled with stylized, jagged yellow and orange lightning bolts. The text is centered and reads:

ROSENDALE-BRANDON SCHOOL DISTRICT
SUMMER SCHOOL
HANDBOOK

June 11 to July 13, 2012 8:00am-12:15pm
no classes July 4, 5 and 6

ROSENDALE-BRANDON SCHOOL DISTRICT

SUMMER SCHOOL 2018

The Rosendale-Brandon School district will offer a five-week summer school program June 11- July 13 (no school Wednesday, July 4th through Friday, July 6th). Please read this booklet carefully. Information about courses to be offered, registration, and how to sign up for transportation are included. If you have any questions, please contact Summer School Scheduling Secretary Jill Englund at engljil@rbsd.k12.wi.us or Summer School Director Nate Roets at roetnat@rbsd.k12.wi.us; you may also leave a message at (920)872-5350.

PARTICIPANTS: Students who are registered to attend Pre-K through 12th grade in the fall of 2018 and who are residents of the Rosendale-Brandon School District or have attended one of our district schools during the 2017-2018 year under the open enrollment option are welcome to participate.

ATTENDANCE: Parents should call the Summer School Office (**872-5350**) if their child will not attend school and/or send a note for early departures or planned absences. **Note that daily attendance at high school credit recovery classes is mandatory.**

DATES/TIMES: Unless otherwise noted in the course description, classes meet June 11-July 13 (no school July 4th through July 6th) from 8:00am to 12:15pm. (The last day for high school credit recovery classes is Monday July 9.)

LOCATION: High school credit recovery classes and Hunter Safety are held at Rosendale Intermediate School. A shuttle will be available to transport these students from Laconia to RI at 7:55 each morning. All other summer school courses are held at Laconia High School in Rosendale.

PROGRAM FEES: No tuition or registration fees are charged to students who reside in the Rosendale-Brandon School District or who have attended a district school during the 2017-2018 school year under the open enrollment option. A **tuition fee (\$100)** is assessed to students who do not reside within district boundaries and/or do not attend our schools under open enrollment. **A materials fee will be charged to all students for those classes that indicate such in the course description.** Fee statements will be sent home with students with schedules/transportation forms at end of May/early June.

REGISTRATION: Please READ CAREFULLY!

Week of March 5 th	Course books are distributed to every family via email. Copies will be available in the school offices for those who would like to get one.
Week of March 5 th	Email is sent to parent(s) containing the registration link, log in information for each student, and instructions for online registration. PARENTS WITHOUT AN EMAIL ADDRESS on file at school should contact Jill Englund at engljil@rbsd.k12.wi.us or 920-872-5350. Incoming 4K students, home-schooled students in the district, or out-of-district students not currently attending should also contact Jill Englund for assistance.
March 13 th –31 st	Parents register students online or, if they do not have Internet access, by contacting Jill Englund
April 1	Registration closes and scheduling begins.
Early May	Upon completion of scheduling, parents will receive an email notification that students will be bringing home schedules, fee statements, and emergency/transportation forms. An emergency/transportation form must be completed for <u>each</u> child. Transportation forms <u>must</u> be returned to the school office by May 25th in order for students to ride the bus on the first day of summer school.

Please note:

- Classes with limited enrollment are filled using a lottery system, not “first come - first served.”

- Students in 4K-1st grade classes register for one session, which runs from 8:00-12:15. In general, other students may attend two sessions, which run from 8:00-10:00 and 10:15-12:15. When registering, these students will select their **top 2** course choices **and 2** alternates. If a schedule can't be filled using these selections, a parent will be contacted to select another option. **NO SCHEDULE CHANGES WILL BE ACCEPTED AFTER MAY 25th.**

SCHOOL CONDUCT/DRESS: Regular school rules apply. If a student consistently creates a disturbance, he/she will be asked to leave the program at the discretion of the director. Students may dress casually, but appropriately and in consideration of the weather. **Tennis shoes** are recommended for safety. Label outerwear with the child's name.

SCHOOL SUPPLIES: All students need regular school supplies. A backpack to carry supplies is recommended. **All supplies should be identified with the child's name.** *Students should bring their schedule for the first few days.*

SNACKS: Students in grades 4K-1 are provided with a snack each day. All other students may bring a healthy snack from home to eat during their break. Snacks will also be available for purchase during break. Students are also encouraged to bring water bottles to carry with them.

TRANSPORTATION: **Students in need of bus transportation must submit their completed Transportation Form to the school office by May 25th.** If we do not receive the completed form, the student will not be put on the bus list. **Late registrations result in the District needing three working days to provide transportation.** Unless parents provide transportation one way, students in need of bussing must enroll in and attend district summer school classes daily from 8:00–12:15 pm.

Brandon students who live within the Village boundary will meet the bus at the east door of Brandon School. Bus lists/times will be posted on the front door of Brandon School on the afternoon of June 9. Students living outside the Village will be placed on a transportation route if their transportation form is received by May 25th. Note: summer school busses do not travel on town driveways and dead end roads.

Bus drivers should be notified if a student will not ride as scheduled. If not notified and/or the student does not ride for **three** consecutive days, the driver will no longer stop at that location.

Swimmers will be picked up and dropped off at the designated locations for the session in which they are enrolled. **Students riding the bus to swim lessons must also fill out a Transportation Form.**

VISITORS: Parents who would like to visit classes should register at the Summer School Office. **Non-enrolled friends of attending students will not be allowed to ride the bus or to attend classes unless they are visiting with the parent/guardian of the enrolled student.**

QUESTIONS/COMMENTS: Contact Nate Roets, Summer School Director, at 872-5350 or email: roetnat@rbsd.k12.wi.us

All Classes on This Page Last From 8:00am – 12:15pm

Pre-Kindergarten

Fun for the 4K Student

This class is for children who will be entering 4-year-old kindergarten in the fall. Lessons are designed for younger students with an emphasis on the special parts of the school setting. Students will be introduced to circle time, calendar, art, letters, math, music and fun! Students will have a daily snack and outdoor time. All children entering 4K will take this class.

Kindergarten

ABCs and 123s: For the Kindergarten Student

This class is for children who will be entering kindergarten in the fall. Lessons are designed for the young student with special emphasis on independent and group functioning, classroom-structured rules, following directions and class expectations. *Reinforcement and advancement* of language arts, mathematics, science, fine arts, and physical education skills will be presented daily. All children entering kindergarten will take this class.

First Grade

Moving on Up to First Grade

This class will provide the opportunity for students to use a variety of activities to achieve stronger skills in fundamental areas such as letters/sounds, blending, rhyme, creating/reading/writing simple words, and reading/writing simple sentences. The class will also provide the opportunity for hands-on projects, which reinforce the areas of color, size, and shape. All children entering first grade will take this class.

First graders are eligible to participate in Swim Lessons.

See page 13 for more information.

Courses for Grades 2-3

All classes listed are for students entering grades 2-3 in the fall.

These courses will be offered from 8:00 to 10:00am and/or 10:15 to 12:15pm based on online registration requests.

2D Art Projects FEE: \$8

Sharpen those pencils and grab those brushes. Students in this class will get their creative juices flowing while constructing a large variety of painting, drawing and printmaking projects. Be sure to bring your own art smock or apron.

Are You Ready to be a 3rd Grader? (grade 3 only)

Are you looking for a class that will keep you ready for the upcoming school year? This course reinforces the concepts taught in second grade reading, writing, and math. The students will have opportunities to review reading comprehension strategies that they have learned this past school year through read alouds, listening to stories, reading to themselves, and writing in a journal. Students will have the opportunity to practice addition and subtraction skills, review basic facts daily, and word problem strategies. Student will also have weekly opportunities to explore different science and social studies concepts in hands on ways.

Bookin' & Cookin' FEE: \$10

Students will read new stories each day. Then, they will help to make a snack that relates to the book, and (as time allows) do a craft project related to the book. For example, if students read *If You Give a Moose a Muffin*, they will then help make muffins, and then draw and write about their favorite part of the story.

Build, Draw, Create, and PLAY! FEE: \$5

Students will be exposed to hands on centers that allow them to build, draw, create and just play. They will create using items such as Lincoln Logs, Legos, blocks, magnets, puzzles, sidewalk chalk, stamps, paper, and other materials. In addition, they will be treated to hands on science stations.

Exploring Spanish FEE: \$5

Spanish is a language that is used in many parts of the world, including here in the United States. Students in this class will learn some basic Spanish words and phrases through singing and speaking. Students will be engaged in a wide variety of activities, such as making a piñata, learning about what it is like to grow up in a Spanish speaking country, sampling food, and much more!

Flat Stanley Adventures FEE: \$5

Flat Stanley is leaving on a virtual summer vacation, and he has invited you to come along! Stanley will be our guide as we head into cyberspace and learn about kids from all over the world. We will research history, regional customs, foods and hobbies. Pack your adventure suitcase, and get ready for this fun summer vacation!

Kids at the (Piano) Keyboard (Beginner) FEE: \$6

Looking for the chance to learn how to play the piano? Bring some experience or none at all. We will learn some piano/keyboard facts and basics and proceed to playing some actual music. You will have a chance to play duets with the teacher, compose your own tunes, and show off your work at the end of summer school in a recital on the big GRAND PIANO! We will also experiment with some technology features to enhance your play. We are looking for keyboards to borrow; contact Mrs. Vande Berg if you have one available.

Kid Authors

Kids who take this course will have the exciting opportunity to “publish” their own book. We will work hard to learn more about the publishing process by creating, editing, and illustrating a story. The course will include writing and producing a final copy, creating a layout, making illustrations page by page, and assembling it into a unique hardcover hand stitched book that will be a great keepsake. Students will have a chance to explore other types of writing and publishing as well. Class size is limited.

Nature Center Adventures FEE: \$5

This class will be outdoors every day (weather permitting) engaging in a wide variety of activities designed to strengthen students' minds and keep them active. There will be reading, writing, science and math activities related to the many exciting features of the great outdoors.

Ocean Mysteries

Have you ever wondered what lives in the deep, dark ocean? In this class, you get a chance to find out! In addition to reading about a wide variety of sea creatures, kids will learn about the ocean's ecosystem, take virtual aquarium tours, get crafty with ocean themed art projects, and much more!

Passport to Animal Expert FEE \$5

Explore animals from every continent and biome! Learn about their adaptations and what makes them special. Get your passport stamped after "visiting" each location. Students will have opportunities to research animals of their choice, participate in activities related to animal life cycles, and make projects to show their expertise.

Soon to Be a Second Grader (grade 2 only)

Students who need or want extra practice to develop fundamental math, writing, and reading skills will benefit from this block of instruction. Teachers will utilize a wide variety of daily activities, such as active learning strategies, and individual and small group lessons, to differentiate reading and math instruction to students' areas of need. In addition, students will participate in hands on projects that reinforce reading and math skills while also allowing students to explore high interest science and social studies concepts.

Space Exploration

Climb aboard for a hands-on journey through the galaxy. How big is outer space? Do aliens exist? Is there life on other planets? We'll try to answer our questions by reading non-fiction texts about space and space travel. We'll also have some fun by reading fictional stories about space and aliens, creating space themed art projects, and writing our own creative stories about adventures in outer space.

Summer of Fairy Tales

Members of this class will read and act out a variety of classic and modern fairytales create fun arts and crafts projects related to the tales, and even create their own original fairytale.

Swim Lessons

Information found on page 13.

**Vacation Destination**

Travel to far-away places without stepping off your school grounds! As you visit countries around the world, you will gather background information, read folktales and stories, create art projects, play international games, and enjoy snacks. You won't even need to pack your bags to be a part of this vacation destination!

Courses for Grades 4-5

All classes listed are for students entering grades 4-5 in the fall.

These courses will be offered from 8:00 to 10:00am and/or 10:15 to 12:15pm based on online registration requests.

2D Art Projects FEE: \$8

Sharpen those pencils and grab those brushes. Students in this class will get their creative juices flowing while constructing a large variety of painting, drawing and printmaking projects. Be sure to bring your own art smock or apron.

Academic Intervention

This highly structured course is intended for students who struggle with reading and/or math fundamentals. Differentiated lessons and projects will be utilized to develop students' skills in their area(s) of need. If your student earned 1s and/or 2s in reading and/or math during the last school year, this course is highly recommended.

Become an Illustrator!

Illustrators welcome! This class is for those that love drawing and love reading books! Help us bring books to life by creating a new illustration daily while reading and listening to an awesome story!! Get creative, and use 3-dimensional art! In this class you will read aloud, listen, and use all areas of artistic ability to bring out the beauty of reading!

Backyard Games

Love spending gorgeous summer days outside being active? Then this is the class for you. Students will participate in a large variety of outdoor games and activities, which are sure to keep them moving and laughing.

Cooking Smart FEE: \$15

Learning to cook healthy snacks and meals on a reasonable budget will be the focus of this class. Students will learn about the origins of their favorite foods, investigate and practice fundamental food preparation techniques and proper food safety procedures, explore the nutritional value of foods we eat, plan healthy meals and snacks based on what is on sale in local grocery stores, and actually prepare (and eat) some meals. Students will also create their own recipe book filled with healthy meals and snacks they can prepare themselves! This class is limited to 20 students.

Exploring Spanish FEE: \$5

Spanish is a language that is used in many parts of the world, including here in the United States. Students in this class will learn some basic Spanish words and phrases through singing and speaking. Students will be engaged in a wide variety of activities, such as making a piñata, learning about what it is like to grow up in a Spanish speaking country, sampling food, and much more!

Fantasy Baseball and Baseball Skills

Students will choose Major League Baseball players and track their performance each day in order to earn points to compete against other students. Knowledge of the players isn't necessary to be successful. After calculating the points each day, students will head outside to practice the fundamentals of baseball, including fielding, hitting and base running.

From Book to the Big Screen!

Did you know that many of today's most popular movies started as books? Movies such as *Diary of a Wimpy Kid*, *Alexander and the Terrible, Horrible, No Good, Very Bad Day*, and *The Lorax* were all based on books! In this class you will read and explore books that were made into movies. You will get to know the authors, learn the history surrounding the story, participate in book talks and literature circles, rewrite parts of the book and perform them in reader's theater, create a storyboard, plan a book/movie themed party and then, of course, watch the movie! Possible titles to select from include: *The Lightning Thief*, *A Series of Unfortunate Events*, *How to Eat Fried Worms*, *Diary of a Wimpy Kid*, *Alexander*

and the Terrible, Horrible, No Good, Very Bad Day, Because of Winn-Dixie, The BFG, The Tale of Despereaux, Jumanji, The Lorax, Mr. Popper's Penguins, How to Train Your Dragon, Cloudy with a Chance of Meatballs, and many more!

“Green” Thumbs

Students will learn the basics in gardening and have hands-on practice. They will plant seeds and watch them grow into vegetables and flowers during this course. In addition to learning how to care for a variety of plants and flowers, students will also learn about the life cycles of a variety of plants, including more exotic selections not native to our area. Students can experience the satisfaction of tending to a garden and watching nature in action.

Indoor Sports and Bowling FEE: \$11

In this session, we will go to Generation Lanes approximately two times per week to bowl. On the days we don't bowl, we'll play a variety of indoor games, such as basketball, mat ball, kickball, dodgeball, tag, and much more. Due to space constraints, this class is limited to 24 students per section.

Kids at the Keyboard II (Advanced) FEE: \$6

Students in this class will learn additional piano/keyboarding facts and techniques along with playing music! We'll also experiment with some technology features and websites to enhance your play. You will also have a chance to play duets with the teacher, compose your own tunes, and show off your work at the end of summer school in a recital on the big GRAND PIANO! We're looking for keyboards to borrow; contact Mrs. Vande Berg if you have one available.

Mystery Mania

Explore a variety of mysteries and become a detective to help solve them! We will go on scavenger hunts, read and write, “choose your adventure”, mystery books, search for clues to solve mysteries, and practice using skills that real detectives use! We will also be working together to solve riddles, logic puzzles, and more. Use your creativity, curiosity, and cleverness to become a detective with us!

Science Exploration! Fee: \$13

Is science one of your favorite subjects in school? Do you wish you'd have more time to explore and learn about different science topics? If so, join us as we travel the solar system while we create our very own space models, explore fascinating Wisconsin animals and other wild animals, experiment with mixtures and solutions, build structures to solve engineering questions, and much more.

Summer Camp

Looking for something new every day? Then get set for a thrill-filled summer! This class will run like a day camp with a variety of activities and projects such as water games, scavenger hunts, team building fun, arts and crafts, and exploring.

Summer Health, Fun, and Fitness FEE: \$5

Students will explore what it means to be healthy. They will participate in a variety of daily exercises and physical activities. They'll also explore healthy food choices and recipes twice a week. Mental exercises, such as yoga and meditation, which can help them relax and cope with stress, will also be explored. In addition, they'll enjoy team-building games and plan ways to make a positive difference in the lives of others.

Swim Lessons

Information found on page 13.

Totally Team Games

Basketball, soccer, volleyball, kickball, capture the flag and much, much more! This is for the athlete who enjoys friendly competition and loves to play all kinds of sports and games. Come join our TEAM!

Courses for Grades 6-9

*All classes listed are for students entering grades 6-9 in the fall unless otherwise specified.
These courses will be offered from 8:00 to 10:00am and/or 10:15 to 12:15pm based on online registration requests.*

2D Art FEE: \$10

If you enjoy a relaxing atmosphere in which you can express your creative or your love of art by painting with watercolor, acrylic, tempera, and oil based paints, drawing, sketching, cartooning and paper-crafting then this is the class for you! Come learn new techniques while working on perfecting the skills you already have. You will bring home around 15 completed projects, including a canvas oil painting!

3D Art FEE: \$10

Ready to get busy with some hands on art projects? Students in this class will create many ceramic, paper mache, and origami masterpieces. Bring your own art smock or apron.

Babysitting (Ages 11+) FEE: \$8

In this course students will develop an understanding of children and their stages of development. They will apply their knowledge to real-life situations and learn skills to minimize any need for discipline. Role-playing scenarios will be used to help babysitters build decision-making skills. Students will create games and play them with children of babysitting age. Students will study first aid, Heimlich maneuver, a beginner course of CPR, and will have opportunities to learn proper diapering and potty-training, spoon and bottle-feeding, bedtime routines, and dressing techniques. Students will experience making healthy snacks and learn how to prepare/cook basic foods. They will also have a chance to create business cards and flyers to promote their new babysitting skills. A local police officer will also present information on safety concerns and protective measures. This course is certified only by Rosendale-Brandon, but mimics the current course offered by the Red Cross.

Become an Illustrator!

Illustrators welcome! This class is for those that love drawing and love reading books! Help us bring books to life by creating a new illustration daily while reading and listening to an awesome story!! Get creative, and sue 3-dimensional art! In this class you will read aloud, listen, and use all areas of artistic ability to bring out the beauty of reading!

Brain Benders

Students will explore the logic portion of the brain by working through logic puzzles. It will test students' determination and grow the brain while having fun. We will work on brain benders such as Sudoku, Break Out Boxes, Scavenger Hunts, and Brain teasers. .

Cirrus Launch Pad

Join this exciting, challenging, project-based course. Projects may include 3D printing, using high tech video lab equipment, photography and editing software, creating art, cooking using molecular gastronomy, etc. Students will explore several areas of project-based learning while problem solving, working as a team, and having fun. Students will have an opportunity to not only explore topics as a class, but also to develop their own passion project, which may center around anything from video games to Van Gogh to golf swings. Projects are interdisciplinary and will integrate subjects such as language arts, science, social studies, math, art, technology and agriculture.

Fantasy Baseball and Baseball Skills

Students will choose Major League Baseball players and track their performance each day in order to earn points to compete against other students. Knowledge of the players isn't necessary to be successful. After calculating the points each day, students will head outside to practice the fundamentals of baseball, including fielding, hitting and base running.

Fitness & Nutrition

Get up and get moving! In this class, we will do a variety of fun exercises - walking, jogging, yoga, Pilates and more. Get confused by nutrition labels? We will explore what they mean as well as figure out how many calories we burn in various exercises.

Games Galore

Turn off the electronics in this class geared toward indoor games. Learn how to play a variety of board and card games and even challenge your friends to a tournament in games of your choice! Games include Monopoly, Sorry!, checkers, chess, rummy, and much more!

Hunter Safety -- Fee: \$10 for DNR Certification

Course meets at RI from 8:00am to 12:10pm from June 12 – June 16 only. To register, students MUST be 12 years old by October 1, 2017.

This course is designed to promote responsible, ethical *hunter conduct*. It emphasizes the importance of wildlife management and familiarizes students with laws and regulations governing hunting in Wisconsin. Students will learn the safe handling of firearms and hunting equipment. Students must attend all sessions to earn Wisconsin DNR certification.

Course objective: To reduce the potential for hunting accidents, injuries and fatalities; to reduce the potential for conflict between hunters, landowners, and other resource users; and to promote safe, responsible, and ethical use of the environment and our resources. PLEASE NOTE: All students must provide a DNR Customer ID Number to the instructor in order to complete the class. Get your number by calling DNR's Customer Service at 1-888-936-7463.

Indoor Sports and Bowling (grades 6-9) FEE: \$11

In this session, we will bowl at Generation Lanes approximately two times per week. On the days we don't bowl, we'll play a variety of indoor games, such as basketball, mat ball, kickball, dodgeball, tag, and much more. Due to space constraints, this class is limited to 24 students per section.

Middle School Boost

This course is strongly suggested for students who struggled (earned Ds or Fs) in the core subject areas of reading, writing, science, social studies and/or math during the last school year. Projects and assignments will help students sharpen their skills in these areas. Organization and study skills will also be reinforced.

Movie Magic

Media is entrenched in our society, but many don't know its secrets. Students will learn the secrets of movies and moviemaking, from the elements of comedy and tragedy, to special effects and stage fighting, to Foley sound stages. Students will watch G and PG movies, and then create their own movie projects using their acting skills, computer technology, and creativity!

Mythbusters Grades Fee: \$5

Explore science the Mythbusters way! Get ready to do hands-on experiments and put some myths to the test! Using a variety of science techniques you will determine what is fact and what is fiction.

Spartan Strength and Conditioning Program

This class enables students to improve their flexibility, strength, speed, and agility. The class will enable students to understand the science of strength training, set goals, monitor progress, and establish healthy eating habits. Workouts will include Free Weights, Flex Bands, Kettlebells, Medicine and Core Balls, and Sports Specific hand/eye drills. Students will be required to wear proper workout attire daily (shorts, socks, shirts, and athletic footwear) to participate in workouts.

Session 1: June 11-July 13 Section 1: 8:00am-10:00am Section 2: 10:00am-12:00pm
Session 2: July 16-July 20 8:00am-10:00am

Summer School Musical

This class explores all aspects of a musical production, which may include singing, dancing, speaking dialogue, scenery, costumes, props, stage presence, backstage procedures, and promotion such as advertising and programming. Students of all experience levels are encouraged to participate and will be notified in May of the musical to be performed.

Swim Lessons

Information found on page 13.

Team Sports

If you're a fan of a little friendly competition and love to stay active playing of sports, this is the course for you. After learning about the rules and strategies associated with a variety of team sports, such as basketball, tennyball, soccer, volleyball, kickball, etc, students will apply the strategies they learned as they actually play. Please note that the main sports that this course focuses on are dodgeball and tennyball.

Traveling Care-A-Van (Note: This class runs from 8-12:15 daily.)

Do you want to make a difference in other people's lives and have fun at the same time? Join this class for a chance to travel to a new destination every day to help others in need! Students will learn the value of volunteering and community service through numerous service projects and reflections. This class is limited to 7 people due to transportation.

Virtual Field Trip

Do you like to travel? Do you want to see the world? No money? No time? Then why not a virtual field trip? Every day is a beautiful day for a virtual field trip! You will explore the world, research whatever places you desire, and share your new knowledge! you will also create a virtual field trip to Rosendale for those that would love to explore your hometown! This class will incorporate project-based research in a 360 degree way!

Special Session options are found on page 12.

General Courses for Grades 9-12

All classes listed are available for students entering grades 9-12 in the fall unless otherwise specified in the course title.

High School Credit Recovery Classes (Grades 10-12 only)

Course offerings are based on student need. General offerings for credit are English, Mathematics, Social Studies (History) and Biology. Students may enroll for one class that will award ½ credit upon satisfactory completion. Daily attendance is mandatory. **Classes will be held at Rosendale Intermediate School from 8:00am - 12:00pm.**

Hunter Safety -- Fee: \$10 for DNR Certification

Course meets at RI from 8:00am to 12:10pm from June 12 – June 16 only. To register, students MUST be 12 years old by October 1, 2017.

This course is designed to promote responsible, ethical *hunter conduct*. It emphasizes the importance of wildlife management and familiarizes students with laws and regulations governing hunting in Wisconsin. Students will learn the safe handling of firearms and hunting equipment. Students must attend all sessions to earn Wisconsin DNR certification to hunt.

Course objective: To reduce the potential for hunting accidents, injuries and fatalities; to reduce the potential for conflict between hunters, landowners, and other resource users; and to promote safe, responsible, and ethical use of the environment and our resources. PLEASE NOTE: All students must provide a DNR Customer ID Number to the instructor in order to complete the class. Get your number by calling DNR's Customer Service at 1-888-936-7463.

Laconia Spartan Strength and Conditioning Program

This class enables students to improve their flexibility, strength, speed, and agility. The class will enable the student to understand the science of strength training, set goals, monitor progress, and establish healthy eating habits. Workouts will include Free Weights, Flex Bands, Kettlebells, Medicine and Core Balls, and Sports Specific hand/eye drills. Students will be required to wear proper workout attire daily (shorts, socks, shirts, and athletic footwear) in order to participate in workouts. **(Students who enroll in only this class must provide their own transportation.)**

Session 1: June 11-July 13 Section 1: 8:00am-10:00am Section 2: 10:00am-12:00pm
Session 2: July 16-July 20 8:00am-10:00am

D.E.S.T.I.N.Y. Summer Class FEE:-\$10

This class is available to students entering grades 6-12 who have or will be attending the DESTINY (Discover Each Skill That Is Now Yours) Classroom at Laconia. This class is designed to maintain functional academics, social skill and vocational skills through experience in the school and community. Students will also experience weekly leisure education activities and trips into the community.

Special Session options are found on page 12.

SPECIAL SESSIONS

Please Note: Transportation is not provided for these sessions.

AP European History Boot Camp

AP European History Boot Camp is designed to give students planning on enrolling in AP European History in the fall of 2017 an opportunity to experience the types of activities and requirements involved with AP European History. Boot Camp will familiarize students with the course textbook, the AP writing process, and the deconstruction of primary and secondary sources. This course will take students through the first chapter of the book and will provide them valuable insights as to what they can expect during the school year. This course uses a workshop format and is highly recommended to all students enrolling in AP Euro the following fall. Although no credit is given for this course, this boot camp prepares students for the rigors of Advanced Placement Classes. **This course will meet June 19, 20, 21, 22, from 12:00-2:00 pm at Rosendale Intermediate School.**

AP US History Boot Camp

AP US History Boot Camp is designed to give students planning on enrolling in AP US History in the fall of 2017 an opportunity to experience the types of activities and requirements involved with AP US History. Boot Camp will familiarize students with the course textbook, the AP writing process, and the deconstruction of primary and secondary sources. This course will take students through the first chapter of the book and will provide them valuable insights as to what they can expect during the school year. AP US History Boot Camp uses a workshop format and is highly recommended to all students enrolling in AP US History the following fall. No credit is granted for this course. **This course will meet June 19, 20, 21, 22, from 12:00-2:00 pm at Rosendale Intermediate School.**

Cirrus Boot Camp

This course is similar to Laconia credit recovery and is available only to students who were enrolled in Cirrus High School during the 2016-17 school year. Students may earn a half-credit through teacher-led projects in a core area **in which they are credit-deficient**. Students should expect approximately 1-2 hours of homework per day. **This course will meet at Cirrus High School M-F from July 31- August 18 from 1:00-4:00 each day. Daily attendance is mandatory.**

Laconia Spartan Strength and Conditioning Program — Available to students entering grades 7-12

This two-hour class enables students to improve their flexibility, strength, speed, and agility. The class will enable the student to understand the science of strength training, set goals, monitor progress, and establish healthy eating habits. Workouts will include Free Weights, Flex Bands, Kettlebells, Medicine and Core Balls, and Sports Specific hand/eye drills. Students will be required to wear proper workout attire daily (Shorts, Socks, Shirts, and Athletic Footwear) in order to participate. This course will meet in the LHS weight room/gymnasium. **This course will meet in the LHS weight room July 17-21 from 8:00-10:00 am.**

FOND DU LAC RECREATION DEPARTMENT SWIMMING PROGRAM

These classes will allow students to develop at their own pace. The lessons will include instruction, practice, and lots of fun in the water! Classes are held at the Aquatic Center via the Fond du Lac Recreation Department.

Enrollment: (Students must have successfully completed kindergarten in order to register for the swimming classes.)

The Rec. Department sets the maximum number of swimmers per session at 30 to provide the highest quality of instruction.

Dates and Times: Each session is two weeks long. Classes will be held **Monday through Thursday** from **1:00-2:00 PM**.

For Session 2, there will be class on Friday, July 7th.

Session 1: June 11 -June 21

Session 2: June 26 – July 3 (No lessons July 4th, 5th, or 6th)

Session 3: July 9 – July 19

Transportation: In order to provide shorter bus rides for the students, the pick-up/drop-off points for each session are as follows. **For the safety of the students, parents are REQUIRED to meet the bus promptly for both pick-up and drop-off. Supervision is NOT provided.**
