Dear Families,

## Internet Safety Resources for Parents AND Teens

The Wisconsin Department of Justice's Internet Crimes Against Children Task Force and the Department of Public Instruction is teaming up to keep families safe online. The departments have launched a program called "Interact!" that will give parents resources to have conversations with their children about internet safety.

Interact is an online, interactive e-course created for parents and guardians to complete with their children with the goal of sparking basic online safety discussions in the home. This 30-minute module provides parents with the opportunity to review their own tech use to set a good example; interactive activities to complete alongside their children, and follow-up resources and activities to keep the discussions going.
