COMMUNITY NEWS:

SMART 911: Fond du Lac County Communications and Emergency Management is asking everyone to please sign up for a new system available in Fond du Lac County called Smart911. Smart911 allows individuals to [create a Safety Profile](#) for their household at www.smart911.com or on the Smart911 App that includes any information they want 9-1-1 and responders to have in the event of an emergency. When an individual makes a 9-1-1 call, their Safety Profile is automatically displayed to the 9-1-1 call taker, allowing them to send the right responders to the right location with the right information. The Smart911 app provides greater access to the lifesaving benefits of Smart911 and targeted location-based alerts to all individuals. The Smart911 App is available on the Apple Store or Google Play. The information entered is only accessible when 911 is called from a phone number that is tied to a Smart911 profile and is only available to responders for a short time during the call. The information is maintained in a secure database and the information is not able to be queried, shared, or sold. For more information or questions, please contact Bobbi Hicken, Director of Communications and Emergency Management for Fond du Lac County 920-929-7647.

Interact is an online, interactive e-course created for parents and guardians to complete with their children with the goal of sparking basic online safety discussions in the home. This 30-minute module provides parents with the opportunity to review their own tech use to set a good example; interactive activities to complete alongside their children, and follow-up resources and activities to keep the discussions going.
