

The following apps, extensions, and/or websites have been requested by district teachers for use in their classrooms and vetted by the Rosendale-Brandon technology committee to verify privacy policies meet district guidelines for student protection and safety.

We will routinely review these programs' privacy policies and terms of service and will update this list on the district website if any of these programs no longer meet our safety and privacy requirements or when new programs are added. We will not add programs to this list without requiring your permission.

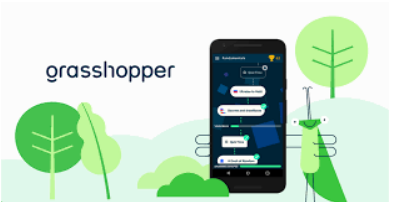

While we do our best to ensure safety and security, we all need to be diligent about monitoring our children's online activity at school and at home. If you feel your child has abused any of these programs or if you feel your child should not be using any of these programs, please notify your child's principal or school media specialist.
